WHO WE ARE

Western Irrigation System Pvt. Ltd. is an **ISO 9001:2015 certified company** manufacturing Polyethylene **HDPE, MDPE AND PLB HDPE Telecom Duct Pipes & Fittings**, located at Chhapra – Rajkot, Gujarat. One of the best quality product manufacturer in India securing more than 8 certifications, and working with over 85+ Indian Government Sectors, attributed as a reputed brand highly acclaimed not only in domestic market but also in International market possessing innovative ideas, excellent **quality products, reliability and durability for its long life, flexibility, security and cost effectiveness** ensuring the budget friendly approach for its clients and dedication to serve better with amazing customer services.

Trusted Partner for **Indian Government Sectors**

Western Pipe's **Certified Quality**

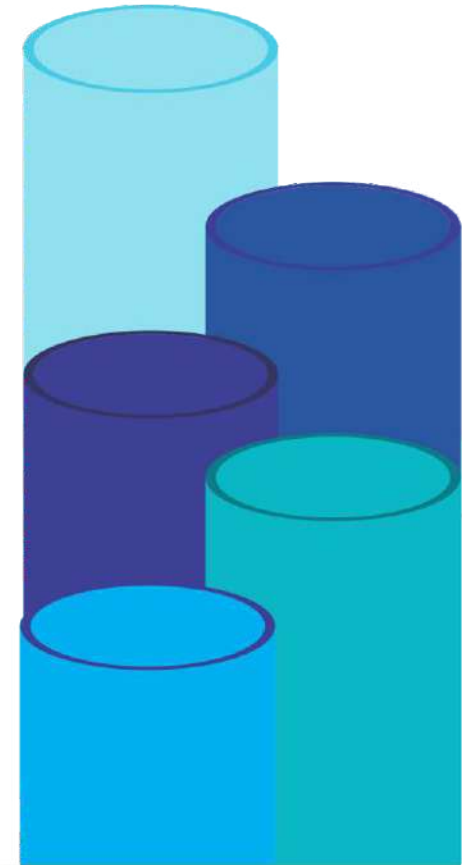

85+ Indian Government & MNC Collaboration And
8 Authorised Certifications

Mr. Rajesh Tarpara (Founder and Owner) of WISPL with an aspiring motive to **make lives better by bringing clean safe drinking water to people** in developing countries started supplying the best quality of HDPE Pipes in the year 1998. Within a few years it established as a prominent pioneer in the industry not only as manufacturers but also as traders, exporters of the **outstanding quality and high density Polyethylene HDPE pipes, MDPE Pipes, PLB HDPE Telecom Duct Pipes and Fittings.**

Embracing the space provided of **96,800 Sq ft for manufacturing, high speed German technology and with fully automated machinery** its workflow and work management is continuous and versatile respectively. It prioritizes on to the standards laid by ISO reinforcing upgraded facilities and technologies in relation to the products, processes & customer requirements each year. It has also installed **wide range of high-quality Testing Equipment's and an independent Quality Control Department** ensuring that all products leaving the factory premises are tested & are confirmed to relevant specifications. Testing equipment's are calibrated at frequent intervals to ensure accuracy & performance. High Quality tests are periodically carried out for every batch & up to date records are maintained to provide only quality products.

Western recognized as the **most innovative and updated manufacturers and suppliers** providing seamless experiences across the globe.

Its goal is to establish **4 manufacturing plants across India** on the major 4 directions of the country by the end of 2050 in order to Provide Innovative Solutions and to successfully cater to the growth of Industrial sector such as **Mining, Agriculture, Telecom, Railway, Defense** etc. and to be valued as the **world's most respected brand** amongst Govt. sectors and MNC's across India.

Committing To Quality

VISION

Only 24% of Indian Population receiving pure water remaining deprived due to various reasons, WISPL aims to collaborate with more than **200+ Govt. sectors PAN India** and to provide the needed facilities to the mankind in an **affordable manner giving quality products** being an Indian reputed company which also makes WISPL the most prominent in the industry for its high quality pipes while maintaining uncompromising principles.

Supply Pure Water
To Every Indian

OUR STORY

WESTERN PIPE'S JOURNEY AND
A HISTORY OF PROGRESS

With a broader perspective it was re-launched by Mr. Rajesh Tarpara involving the emergence of **WESTERN POLYMERS** at Metoda, GIDC having the area of **500 sq.mt for manufacturing MFG HDPE pipes**. Its size ranging from 20mm to 110mm at that point of time.

1998

1996

WISPL'S parent company was **founded** with the vision to provide the best quality of HDPE pipes at Movdi, Rajkot.

1997

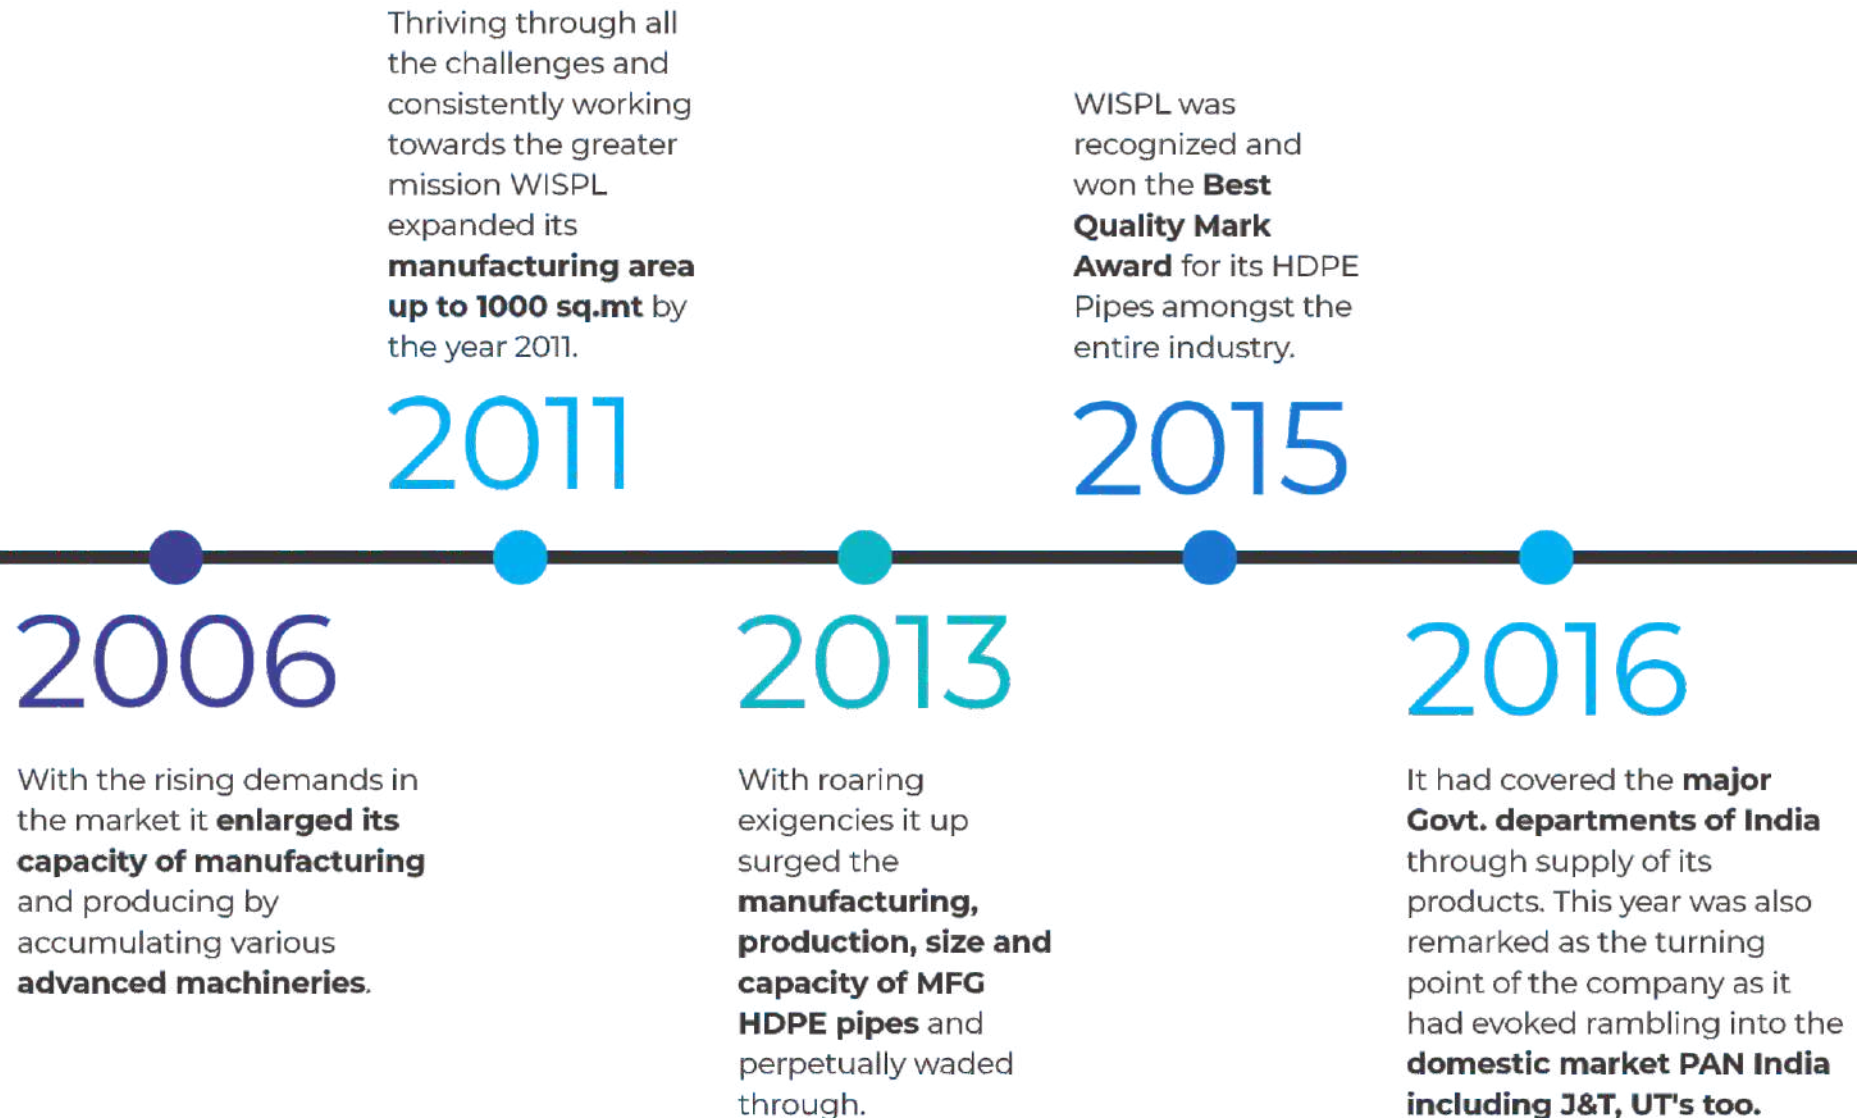

It unfortunately had to be confined as a result of indifference amongst its founding partners.

2004

In the following years it worked efficiently with sheer **hard work and with the motive of satisfying** its clients through excellent sales and after sales services.

In 2004, it had gained popularity and was prospering tremendously. With a greater vision in mind and in order to redesign itself it was renamed as **WESTERN IRRIGATION SYSTEM PVT. LTD.**

WESTERN PIPE'S JOURNEY

HDPE, PLB, Telecom, Duct Pipes were popularized and the organization boomed and collaborated itself with more than **14 Govt. sectors** across India.

2018

The firm kept fructifying and grew in the market considering its cooperation with more than 35+ Govt. clients by the year 2020.

2020

2017

Advanced **German Technology Machines** were purchased multiplying the production **capacity to 432 MT** per month.

2019

The company advanced with the launch of new products, i.e.; **MDPE Pipes for water and gas supply** and was then associated to more than 21 Govt. clients supplying various products.

It identified as the **4th Company in India** to be approved by the Telecommunication Department of India as the **manufacturers and suppliers for HDPE PLB Telecom Duct Pipes.**

2022

2021

WISPL was maturing extensively as the demands hooted it was accepted widely leading to remarkable attainment with accommodation to **new infrastructure** and relocation to a larger **manufacturing area of about 96,800 Sq Ft at Chhapra, Rajkot.** Also, by the year 2021, it was associated to more than **50+ Govt. clients nationally.**

2023

We are expanding our production capacity by introducing new **German-made production equipment** that can produce HDPE pipe up to **500mm dia.**

Sustainable,
Environmental Friendly
And Long Lasting.

RECOGNITION & ACCOLADES

Their awards and recognition salute the unwavering commitment to outstanding personal performance. Their achievements are shaped by the strength of the foundations set. It is a mark for their commitment to excellence. Defining the vision of excellence.

NETWORK

We take pride in our extensive network that spans across the vibrant landscape of India. Our network expansion initiative aims to establish a strong presence in every corner of India, ensuring seamless connectivity and efficient distribution of our products. Inspired by our logo, which features five distinct circles, each representing a different region, we are committed to fostering growth and delivering excellence across West, North, Center, South, and East India.

THE PEOPLE BEHIND

TEAM OF WESTERN

Teamwork is the collaborative effort of a group to achieve a common goal or to complete a task in the most effective and efficient way, mentioning about the alluring directors of WISPL in the coming sections.

Western Irrigation System Pvt Ltd has 3 Directors who are the pillars and backbone of the company. They are Mr Rajeshbhai Tarpara, Mrs. Jyotsnaben Tarpara and Mr Deep Tarpara without which WISPL would not be in existence.

**“Alone we can do so little,
together we can do so much”**

DIRECTORS

**“Don't Work For Money,
Always Work For Better Lives.”**

Mr. Rajesh Tarpara
Founder and Owner

Mr. Rajesh Tarpara is an Indian industrialist, philanthropist, founder and owner of the WESTERN IRRIGATION SYSTEMS PVT.LTD. He has been the chairman of WISPL, since 1998 till date. He has been in the field for the last 23 years and has an in-depth knowledge in this industry and is also very well-known and admired for his business sense and technical expertise. His experience has brought much reputé and confidence to the customer base.

DIRECTORS

**“Always Love What You Do,
Profit Is Just A Byproduct.”**

Mr. Deep Tarpara
Director and Owner

The young and dynamic director of Western Irrigation System Pvt Ltd had joined the family business in the year 2017 and right now under his elite leadership the company has marked astonishing growth and has also developed new products under his guidance. He has completed his B.Sc. Degree in Industrial Chemistry where in Chemicals and Petrochemicals has been his subjects of interest since 24 yrs. of age.

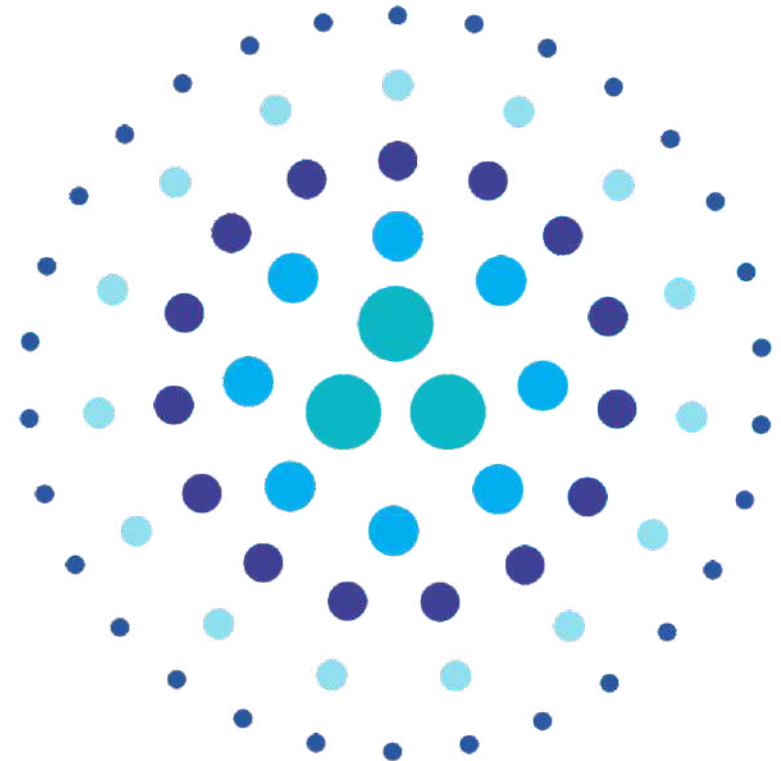

MANPOWER

WISPL's work management has been more versatile and continuous over years involving managing workflows and tasks related to any particular project or work. They **value their work and believe in precision**. With a **strong work ethic** which relies on dependability and responsibility, possessing a positive attitude.

The team is motivated to **grow and learn**.

In order to get the most reliable results they **minimize bias and error**, with precision and accuracy.

They have a Team in each Department with **expertise into their respective fields**. They have knowledgeable and efficient manpower that supports their work and progress with their abilities to achieve the target **empowering each other to take ownership of their actions**.

A decorative graphic consisting of eight circles of various shades of blue and purple, arranged in a grid-like pattern on the right side of the image. The circles are of different sizes and colors, including dark blue, medium blue, light blue, and purple. One circle is positioned in the bottom left corner, and another is in the top right corner. The text is centered on the left side of the image.

Crafting A Fluid Future:
Flowing Innovation,
Unrivaled Performance.

OUR PRODUCTS

Any time at Western Irrigation System Pvt. Ltd is the product of a **consistent journey that requires effort, research, improvement, and customization.** It's about creating unique and effective service and a better experience for customers with awards for high quality in 2015, Six Sigma Certificate , ISO 9001:2015, ISO 14001:2015,ISO 25001:2018, ISO/IEC 17025:2017 FOR INHOUSE R&D LAB.

They have been manufacturing and supplying **HDPE PIPE, MDPE PIPE, PLB HDPE TELECOM DUCT PIPE.**

PRP PIPES

HDPE PIPES

Western is manufacturing
HDPE Pipes From 20mm to 500mm
with pressure ratings from
PN 2.5 - PN 20 in Grades like
PE 63, PE 80 & PE 100.

Key Features

**100%
Virgin Raw
Plastic Plup
Material.**

**Flexibility
And Crush
Resistance.**

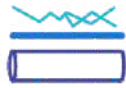

**Hydrostatic
Strength
And
Durability**

**Chemical
Resistance.**

**Lightweight
And Easy
& Fast
Installations.**

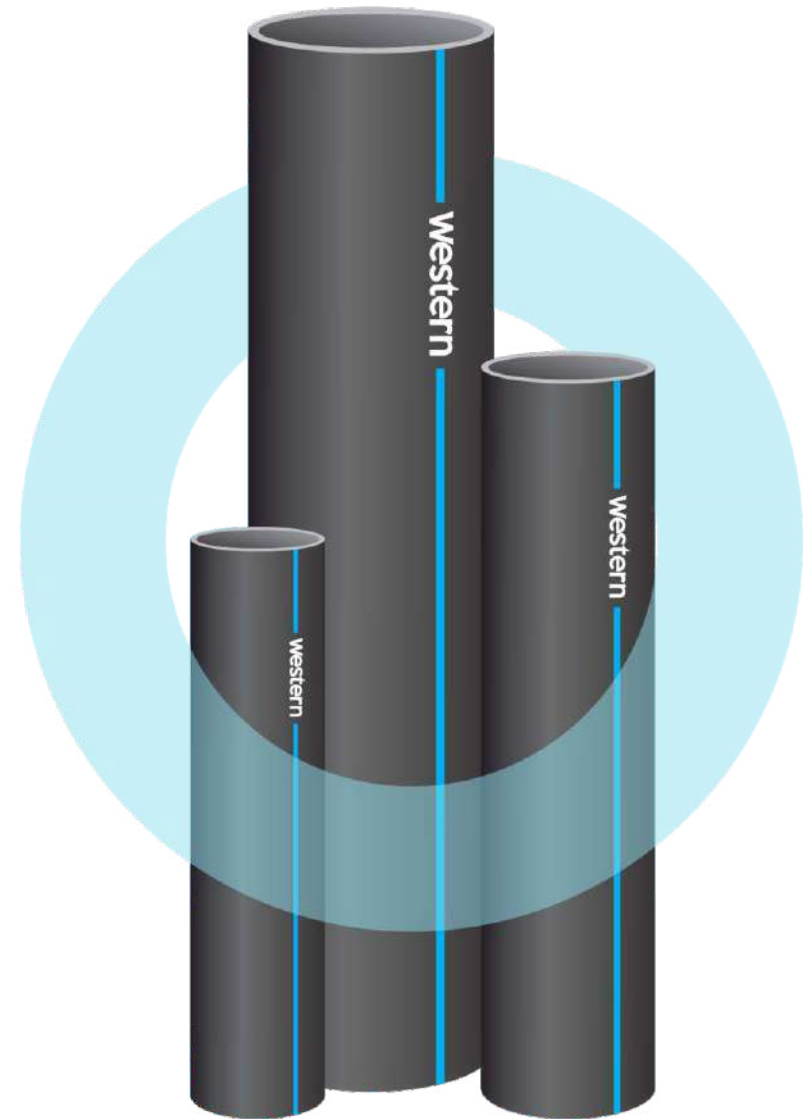

**SCGR
(Slow Crack
Growth
Resistance)
Properties.**

**No
Bacterial
Growth.**

**Leak-free
Monolithic
Pipe**

PLB HDPE DUCT PIPE

Western is INDIA'S 4th Company with
Approved TEC Certification PLB HDPE
Telecom Duct Pipes With 8 Colors and
from 32mm to 110mm

Pipe Available In Colors

Key Features

**100%
Virgin Raw
Plastic Plup
Material.**

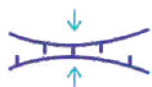

**Flexibility
And Crush
Resistance.**

**Impact
Resistant**

**Chemical

Resistance)
Properties.**

**Easy
Transport &
Light
Weight**

PPR PIPES

Western is manufacturing PPR Pipes From 20mm to 500mm with pressure ratings from PN 6 - PN 16 As Per IS – 15801 : 2008 standard

Key Features

100% Virgin Raw Plastic Pellet Material.

UV Stabilized Outer Layer

Anti Microbial Inner Layer

Chemical Resistance.

**Hot & Cold Water
-0°C to 95° C**

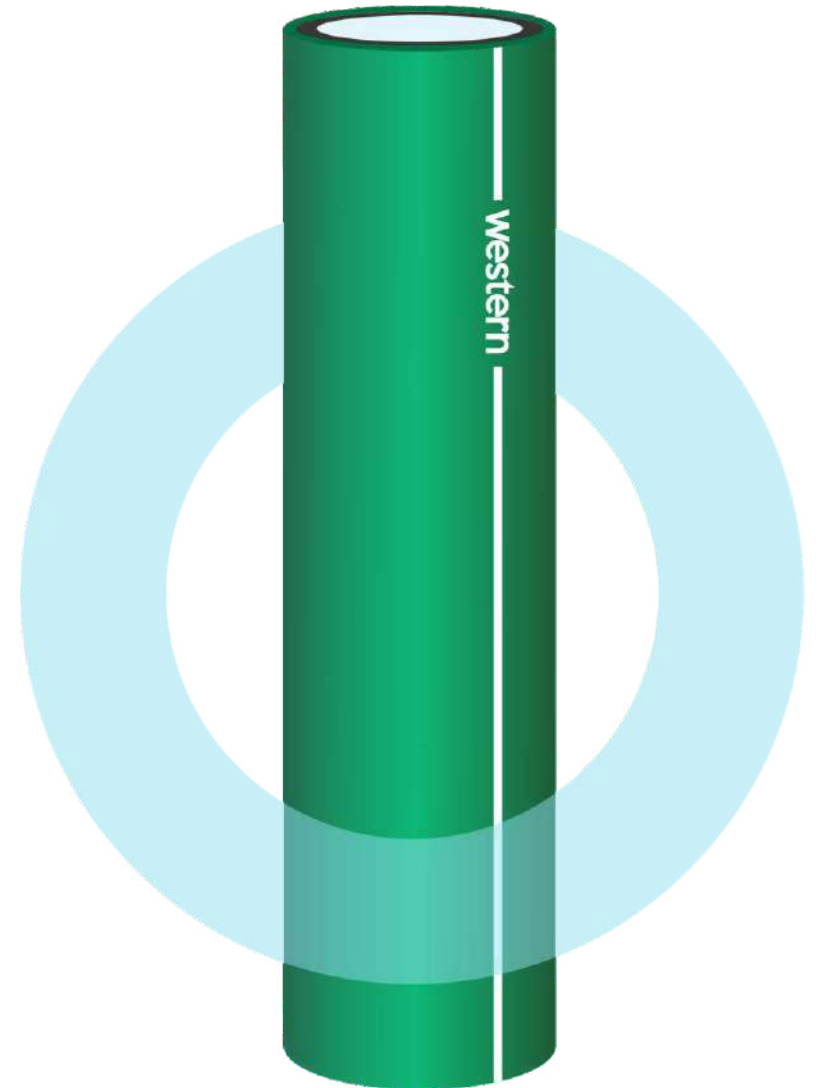

Leak-free Monolithic Pipe

Less Coefficient Of Friction

3 Layers In Inside Pipe

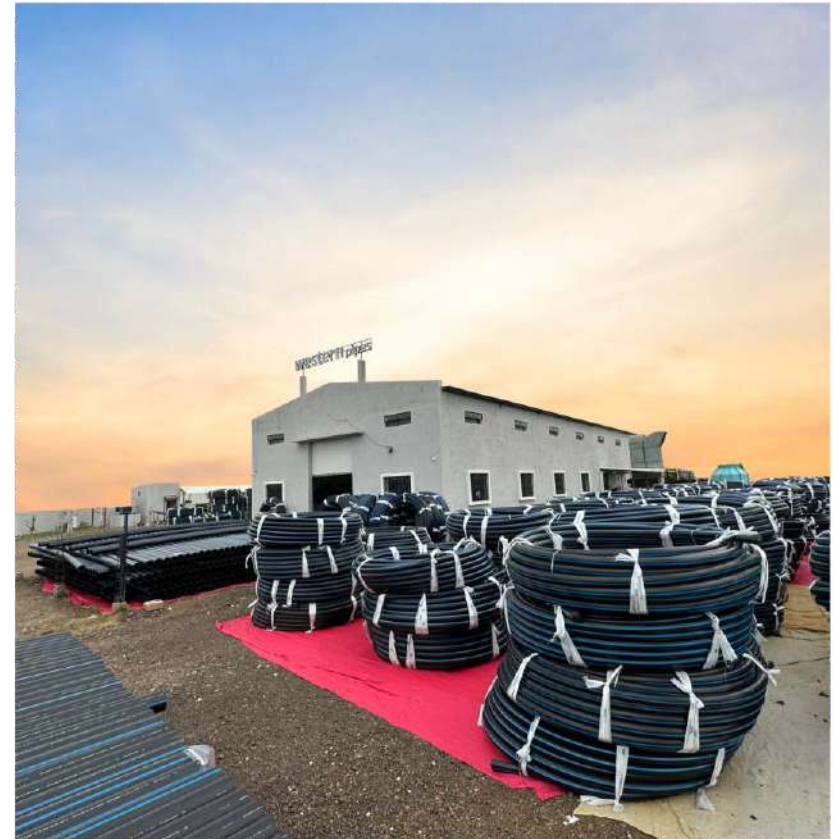

INFRASTRUCTURE

A work environment that is **free from injuries and accidents** attracts employees and leads to job satisfaction and eventually when employees are more satisfied, the productivity is heightened in such an environment

Being Aware and Identifying workplace Hazards, WISPL has been implementing **Workplace Safety Programs, Providing Proper Safety and Training to the workers, Using Protective Safety Equipment.**

WISPL's head office is located **25 km from Rajkot City** in the state of Gujarat, India.

It has a massive Infrastructure of around **96,800 Sq. Ft**, with impeccable **high speed, fully automated machines with auto winder, 3 Nos. German technology** with high speed extrusion line machines (Windsor) and well equipped In-house Lab and R&D facility.

Its **Lab area is around 6000sqft** where company adheres to all procedures and processes laid down thereunder. To maintain excellent quality standards as per **IS4984 norms**, Western Irrigation System Pvt Ltd. has installed a wide range of **high-quality Testing Equipment** to enhance its standard. An independent Quality Control Department ensures that all products leaving the factory premises are tested for quality & are relevant as per the specifications.

It has an **Office area of 1000 sq. ft.**

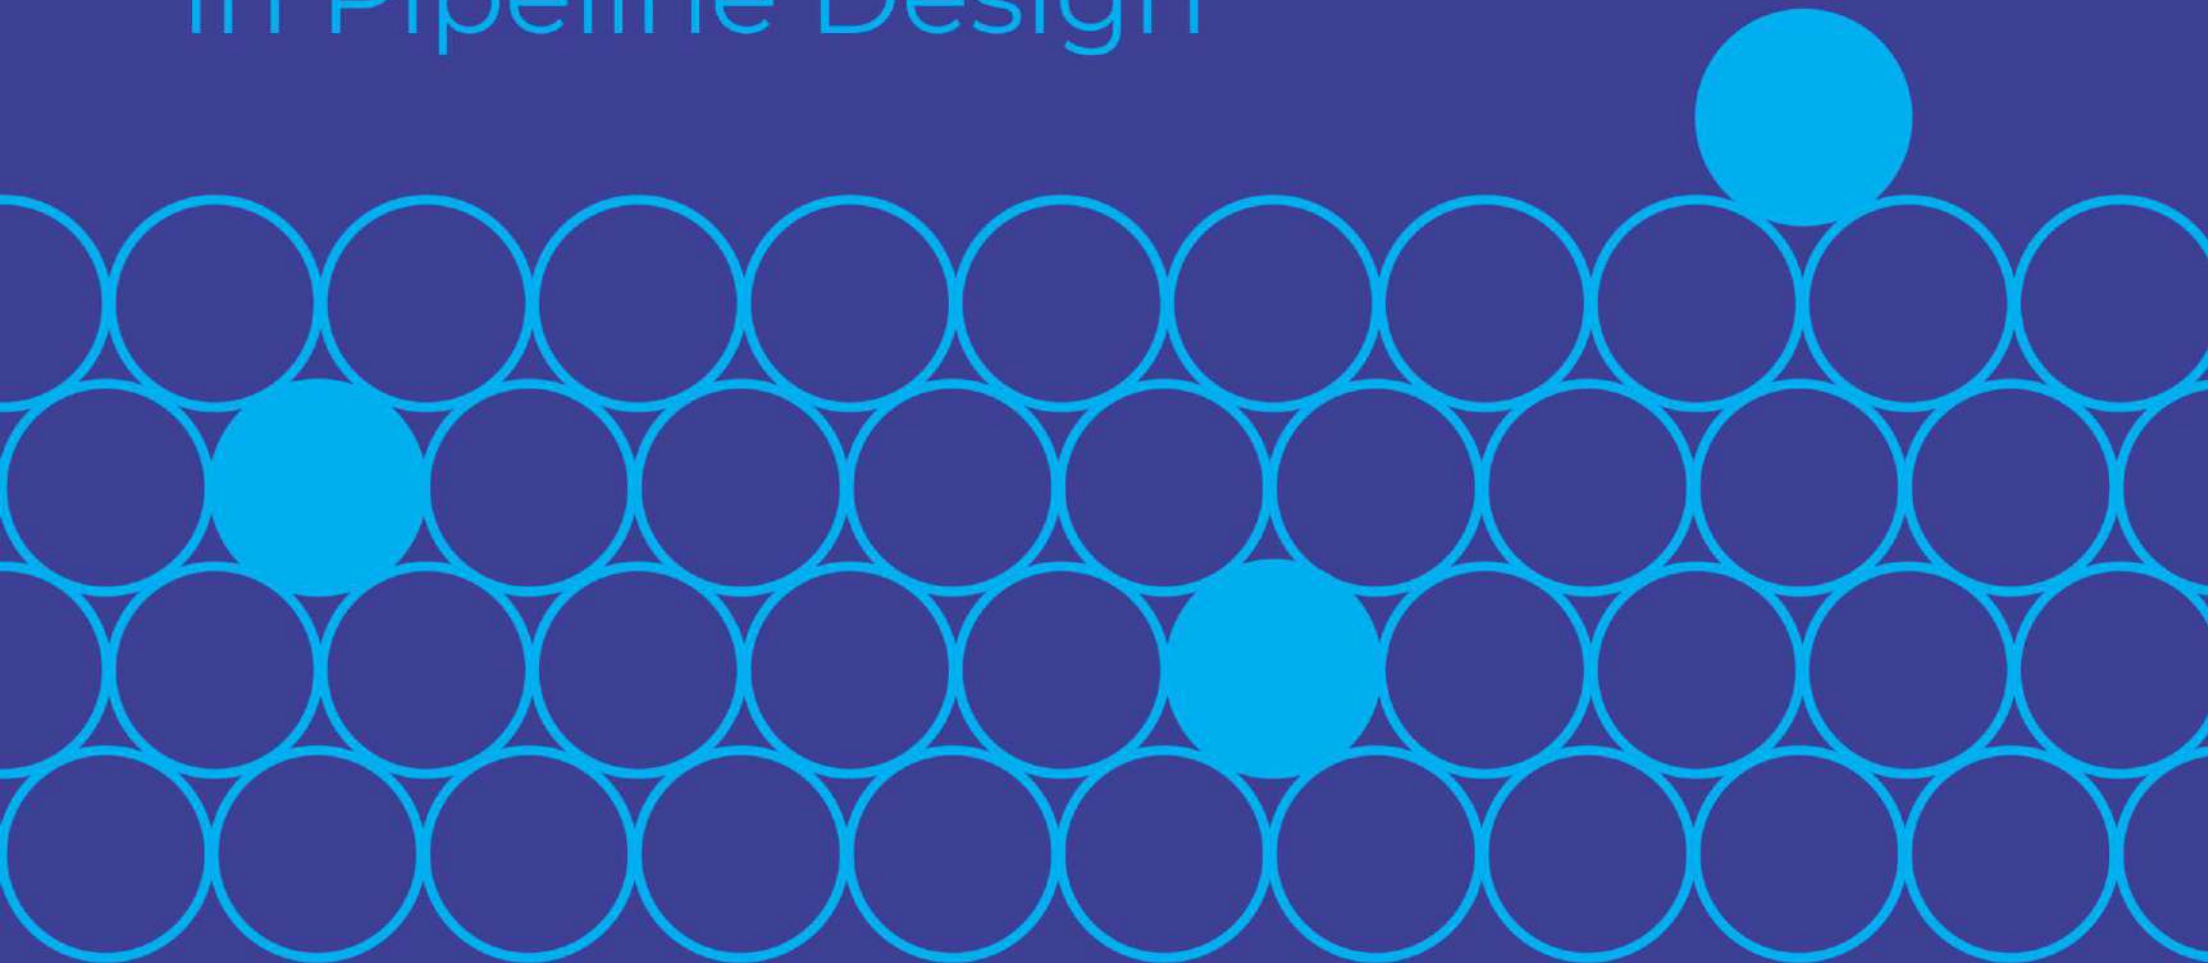

In order to produce HDPE pipes that meet the market requirement in the shortest time they have a production capacity of **10000 MTPA** (Metric Tonnes Per Annum) and aim to expand it to almost double, easily supplying products across till 2025.

Developing professionally through expanding capabilities with **innovative training and technologies.**

Engineering Innovations: Redefining Possibilities In Pipeline Design

QUALITY

Where Excellence Meets
Expectations, And Satisfaction
Becomes The Standard.

WISPL believes that **producing and supplying quality products** is very important for customer satisfaction that ultimately results in customer loyalty. The management's attention to ISO standards has been a priority and the procedures are reinforced with better coordination **facilities and technology aligned with evolving products, processes & customer requirements.** To maintain excellent quality standards as per IS4984 norms, Western Irrigation System Pvt Ltd. have installed a wide range of high-quality Testing Equipment to maintain quality. An independent Quality Control Department ensures that all products are tested for quality & confirm to relevant specifications.

WISPL conducts following stringent quality checks at each stage of manufacturing to ensure only the best quality product is delivered to the customer.

- Dimensional Check
- Longitudinal Reversion
- Melt Flow Rate
- Overall Migration
- Tensile Strength
- Internal Pressure Creep Rupture Test
- Carbon Black Content & Dispersion
- Oxidation Induction Time
- Density
- Elongation At Break
